Executive Chairs

01

CLASSICS AA101

Improved back support, knee-tilt function, and height adjustability. Linkage armrests offer comfort and modern styling. Features one-touch height adjustment, tilt lock, and adjustable tilt tension.

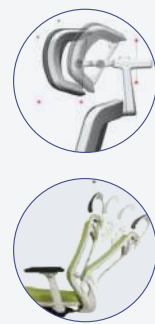

ROYAL AA102

Royal demonstrates the unique maturity and modern elegance of Italian style. For an executive manager who pursues excellence and cares about the aesthetics of the workplace, this is "The Choice".

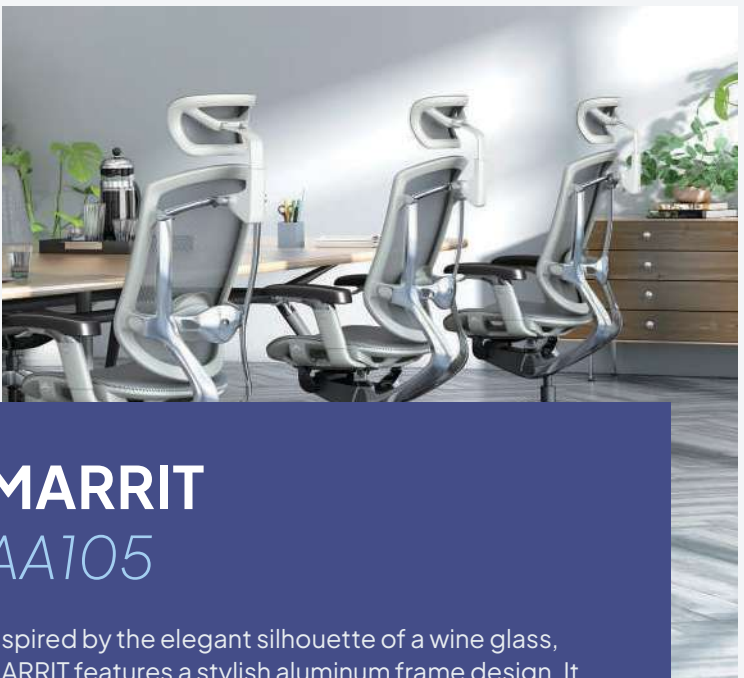

NATURE AA103

The chair features a fully adjustable headrest with height, depth, and tilt control, plus an optional detachable version. Its smart synchro mechanism automatically adjusts backrest tension based on the user's weight. A patented lumbar system changes support strength depending on its height position. Seat depth can be customized for different body types, and the armrests adjust in three directions.

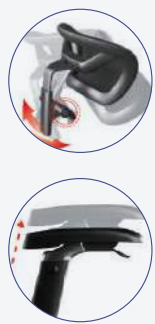

BISON AA104

A bold, symmetrical design inspired by bison strength, paired with stable urethane lumbar support for better lower-back comfort. The seat depth adjusts to suit different body types, while the patented pressure-spreading seat reduces thigh strain during long working hours.

MARRIT AA105

Inspired by the elegant silhouette of a wine glass, MARRIT features a stylish aluminum frame design. It includes independent backrest angle adjustment, height-adjustable lumbar support, a 3D adjustable headrest, a 4D adjustable footrest, and high-elasticity Wintex mesh with DuPont yarn. The patented suspension knitting method provides a soft-touch, breathable, and comfortable seating experience.

Office Chairs

02

OASIS AA106

Extra PY foam pad removed from the bottom seat frame, replaced import high density mesh for improved air flow and abstracting body thermo. Introduced stronger integrity and elasticity.

TAYLOR AA107

The style of mesh combined with the comfort of fully upholstered, 100% recycled fabric seats. These chairs feature an ultra-comfortable mesh back, to create an enjoyable workday. Choose from high back and mid-back swivel tilt chairs.

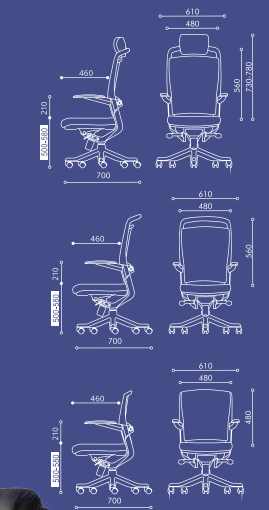

MODERN AA108

A patented seat design spreads pressure evenly to reduce thigh strain during long sitting hours. The smart synchro mechanism adjusts backrest strength automatically based on weight and offers multiple locking positions. Seat depth can be customized for different body types, and the 3D lumbar support provides up-down and front-rear adjustment with a soft, stylish pad.

FULKRUM AA109

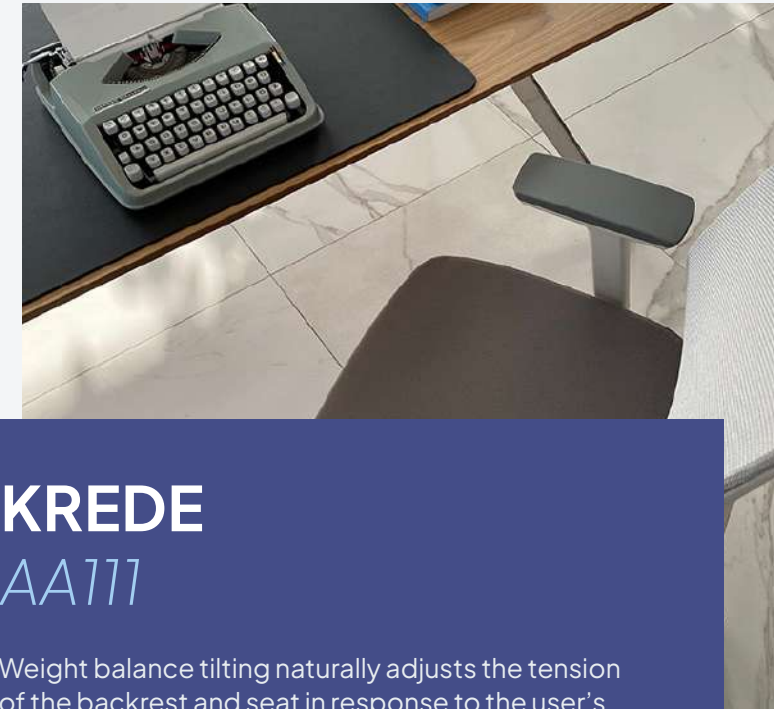

The chair combines adjustable comfort features with breathable materials and recyclable components. It offers a height-adjustable headrest, mesh backrest, customizable lumbar support, multi-directional armrests, and a synchro-tilt mechanism.

ARETE AA110

A patented seat design spreads pressure evenly to reduce thigh strain during long sitting hours. The smart synchro mechanism adjusts backrest strength automatically with multiple lock positions. Seat depth is customizable, lumbar tension can be fine-tuned by lever control, and chrome accents on the back add a stylish finish.

KREDE AA111
